Lindsay Leal

LaCoste, TX

For me as a teacher we use digital learning to personalize learning, providide online resources for parents, make data-driven decisions, and to get information about a student's math and reading level. An example of digital learning in my classroom and school is: Administering a STAR test to determine a students level and track a child's progress. I have to take my students to a lab that is shared with the campus to. It becomes hard and my school   However, my district network is failing to keep keeping up with demand, and the need for a reliable high-speed network is only going to increase in the near future.
